<p>CONICAL (Type 29) 15° – 35°</p>  <p>The angle maximizes surface contact for aggressive stock removal on flat surfaces.</p>	 (SABER TOOTH)			
<p>FLAT (Type 27) 0° – 15°</p>  <p>Smooth grinding, blending and finishing on flat surfaces and slight contours.</p>				
<p>HIGH DENSITY (Type 27) 0° – 15°</p>  <p>Conformable to irregular surfaces. Smooth grinding, blending & finishing on flat surfaces.</p>	 (SABER TOOTH)	 (BIG CAT*)		

SPECIALTY DISCS

Trimmable
(Non-Marking)

Trimmable composite backing for flexibility and versatility. Will not mark the workpiece.

Aluminum Back
(Rigid Support)

Aluminum backing plate provides rigid support needed in pipeline applications.

BobCat Mini Discs
(Tight Spaces)

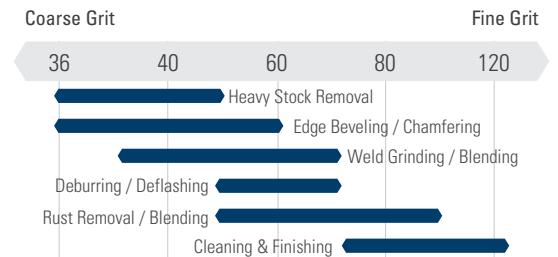

For grinding hard-to-reach areas. Composite backing.

Angled Style
(Fillet Welds)

Curved flaps contour perfectly for fillet weld grinding while also allowing for efficient flat surface grinding.

BACKING

Phenolic

Prevents backing from scratching the workpiece.

Aluminum

Rigid support for maximum aggression; recyclable.

Composite*

Trimmable, non-marking backing; allows access to hard-to-reach areas.

*BobCat™ Discs are not Trimmable.

GRAIN

CERAMIC ALUMINA (CA)

- Self-sharpening micro fracturing crystals expose sharp edges
- Maintains a high cut-rate for the life of the grain
- Longest cutting life under moderate to high pressure
- Exceptional performance on hard-to-grind metals

ZIRCONIA ALUMINA (ZA)

- Self-sharpening crystals
- Holds up under high temperatures and extreme pressure
- Sharp, fast cutting, long lasting grain

ALUMINUM OXIDE (AO)

- Single crystal that dulls during use
- Good initial cut rate
- Hard, durable grain

ARBORS & DRIVE MANDRELS

Open Arbor

- Requires adapting nuts
- 5/8" option for 4" grinders
- 7/8" option for 4-1/2" and larger grinders

Mounting Discs with Open Arbors

- Adapting Nut
- Abrasive Flap Disc
- Adapting Nut
- Right Angle Grinder

5/8" - 11 Nut

- Quick change-over
- Eliminates cross-threading experienced with plastic backs
- Metal nut eliminates the disc from sticking to the grinder due to heat build up

Mandrels & Metal Hub Pads

- For quick-change on tools with 1/4" collets

Type R hub pad + mandrel

Type S hub pad + mandrel

Type S mandrel
