RISE'N GRIND

HIGH PERFORMANCE PIPELINE PRODUCTS FOR THE MOST DEMANDING JOBS.

For generations, pipeliners have trusted Weiler's Roughneck® Stringer Bead Brushes (**AKA Skinny Buffing Wheels, Bead Brushes**) and Aluminum Backed Tiger® Flap Discs (**AKA Tiger Paws, Sanding Discs**) to get the job done in the most demanding environments. With the addition of our Pipeline Grinding Wheels (**AKA Bead Grinder, Grinder Disc**), Weiler Abrasives manufactures the trifecta of high performance bonded abrasives, coated abrasives, and power brushes designed, tested, and proven specifically for use on the pipeline.

From the first tack to the final cap, Weiler Abrasives delivers the performance you need.

MAINTENANCE & REPAIR

PIPELINE APPROVED

We worked directly with Pipeline Welders and Helpers to design our new TIGER® Pipeline Grinding Wheels. They told us what they needed and we listened. They tested the wheels and we used their feedback to make them better, and we didn't stop until we had a design that exceeded all expectations.

Pipeliners spoke and we listened...

Do NOT Chip *Operators will no longer feel the need to chip the wheel to get it to bite*

WHEEL FOR: GRINDING NOTCHING

PIPELINE GRINDING WHEEL

FOR BEAD GRINDING, TRANSITIONS & FACING THE LAND

AKA BEAD GRINDER, GRINDER DISC

Weiler's Pipeline Grinding Wheels are designed specifically for pipeline applications. Whether grinding a bead, facing the land, prepping transitions, or fabricating in the yard, this wheel is ready to work out of the box, delivering consistent, aggressive grinding throughout the life of the wheel, eliminating the need to chip it.

**TYPE 27
FOR PIPELINE**

TIGER PIPELINE GRINDING WHEELS CERAMIC INFUSED / Fast Grinding & Long Life on Pipe

Diameter	Thickness	Grade	Max. RPM	Standard Pack	Item Number
4-1/2"	1/8"	Z30T	13,300	10	58090

TIGER MECH NOTCHING WHEEL

FOR BEAD GRINDING ON MECHANICAL PIPE WELDS

Weiler's Tiger Mech Wheels are designed for grinding applications on mechanical welds with J and K bevels. These high performance wheels are thinner than standard pipe notching wheels, allowing the operator to grind the starts and stops without scarring the bevel.

TYPE 27 

FOR MECHANIZED PIPE WELDING

TIGER MECH NOTCHING WHEELS

POWER BRUSHES

AKA BUFFING WHEEL, BEAD BRUSH, SLAG BEATER

"Weiler is better and lasts longer and cleans better than other buffing wheels"

- Welder Helper

Weiler weld cleaning brushes last longer and clean faster because they are made with the highest quality material and are engineered to optimize performance. Here's why:

SUPERIOR MATERIALS: Minimizes the amount of wire that is thrown at you as the brush wears

SUPERIOR DESIGN: Wire tips remove slag faster to insure inclusions are removed before the next pass

SUPERIOR CONSTRUCTION: Eliminates the break in time where you feel the brush is not doing any work

STRINGER BEAD WHEELS / Steel Wire / Sharp Wire Tips Clean Right Out of the Box

These brushes are the standard for high-performance weld cleaning brushes. Ideal for cleaning hot welds.

THE DUALLY®

STRINGER BEAD WHEELS / Steel Wire / Designed to Flip / Improved User Safety

A dual-hex nut design simplifies periodic flipping of the wheel for aggressive cleaning and long life. Dually is safer because the nut provides the necessary clearance so there is no need to remove the guard from the grinder when flipping the wheel. Ideal for cleaning hot welds.

Diameter	Wire Size	Arbor Hole	No. of Knots	Face Width	Trim Length	Face Plates	Max. RPM	Std. Pack	Item No.

ALUMINUM BACK FLAP DISC

When you ask for a Tiger disc, make sure that's what you get.
There is only one true Tiger and it's made by Weiler Abrasives.

TYPE 29 
FOR PIPELINE

TIGER ALUMINUM BACK FLAP DISC

Tiger Aluminum Back flap discs are the benchmark for the pipeline industry, providing rigid support for maximum aggression. These wheels are ideal for removing heavy pitting and resists rolling the bevel ends prior to welding. The aluminum backing also prevents the disc from catching on the bevel when grinding.

Diameter	Arbor Hole	Grit Size	Max. RPM	Standard Pack	Item Number

AKA TIGER PAWS, SANDING DISC, SANDING PAD

"We use flapper wheels to take the seam back 1/2" on the inside and the cut" - then we "Tiger Paw the whole bevel"

- Welder Helper

Self-sharpening ZIRCONIA ALUMINA grains hold up under extreme pressure

Backing plate provides **rigid support** for cleaning pits out of the bevel and shining up the repair to spot the defect

Aluminum backing plate won't catch the bevel, helps **prevent kick back** when grinding

A black and white photograph of a worker in safety gear, including a high-visibility vest and heavy-duty gloves, using a large angle grinder. The worker is positioned on the left, with their hands on the tool. The angle grinder is a large, industrial-grade tool with a prominent handle and a large grinding wheel. It is being used to grind a large, dark metal pipe that is mounted on a stand. Sparks are visible as the wheel makes contact with the pipe. The background is a gravel surface. A red horizontal band is overlaid on the top half of the image, containing the main title in white text. A dark blue box is in the bottom right corner, containing descriptive text.

CUTTING, GRINDING & COMBO WHEELS

TYPE 28 Grinding Wheels are designed for increased aggression at lower working angles and access for pipe transitioning.

AKA SLICER, CUT OFF, 045 / AKA SAUCER, CONCAVE DISC

TYPE 27
FOR NOTCHING & GRINDING

TIGER ZIRC NOTCHING & GRINDING COMBO / Zirconia Alumina

Combination wheels offer flexibility and efficiency when switching between notching and grinding applications. Triple fiberglass reinforcement provides the strength to hold up when grinding while maintaining a fast cut.
