

THIN CUTTING WHEELS

ULTRACUT

FEATURES:

- **Lightning Fast Cuts** — 20% faster than the closest competitor
- **Long Life** — maximize cuts per wheel, reducing change-overs and cost of use
- **Reduced Burrs** — super smooth cuts create smaller, cleaner seams for easier welding
- **Consistency** — A TRUE 1 mm thickness delivers consistency for precision cutting
- **Greater Stability** — increased wheel density through SOLID CORE technology provides superior wheel stability and optimum safety

BEST ON: thin sheet metal, tubes, profiles, small cross-section rods

PROPRIETARY
SOLID
CORE
TECHNOLOGY

increases cutting speed and provides longer life, reduced friction, & superior stability

You can be thin and still be tough with Metalynx thin cutting wheels.

UltraCut thin cutting wheels deliver unmatched cutting performance and toughness with a TRUE 1 millimeter thickness. These ultra thin wheels deliver precise, clean cuts that are faster and smoother than conventional cutting wheels.

Proprietary SOLID CORE technology increases density of the wheels, resulting in longer life, reduced friction, and superior stability. From the first cut, operators will experience lightning fast, smooth cutting, and exceptional control for clean, precise cuts on thin sheet metal, profiles, and small diameter rods.

MAX INOX ULTRACUT

Contaminant-free* for stainless steel
